INNOVATION CONSULTANT ROLE

With a background in design

www.innoviatech.com

WE SOLVE THE HARDEST PROBLEMS

Our team of scientists, engineers, designers and behavioural scientists collaborate to dynamically innovate.

WE CREATE INNOVATIVE SOLUTIONS

We develop innovations for many sectors ranging from food and drink to transport, energy and apparel.

WE LOVE WHAT WE DO

Our values are centred around feeling fulfilled, having fun and delivering brilliant results for our clients.

WE ARE ON THE LOOKOUT FOR DESIGN TALENT

Innovia Technology is a Cambridge-based consultancy specialising in early-stage, breakthrough innovation for clients such as Proctor & Gamble, Shell, Boeing, Jaguar Land Rover, PepsiCo and Kraft Heinz.

Innovia is an exciting workplace for designers: the diversity of projects gives you opportunities to be involved in the creation and development of medical devices, transportation, point-of-sale materials, packaging, apparel, home appliances, consumer electronics and much more! Innovia's tightly knit teams mix designers with other innovation experts, including behavioural scientists, engineers, business developers and PhD-level scientists, to enable designers to catapult their thinking and concepts into breakthrough innovations.

Designers play a key role in these teams, translating insights from consumer behaviour into compelling new products ideas and experiences that consumers will love and working with multi-disciplinary teams to make them real.

WHY INNOVIA?

Innovia Technology is a fast-growing company with plenty of opportunities to work for some of the biggest companies in the world. You'll be exposed to a wide range of design across multiple industries and get to work with excellent team members to solve challenging problems.

Innovia can help you in your design career:

- Enhance ideation, process and strategic thinking
- Work in multi-disciplinary teams on diverse projects
- Gain a deep insight of consumer behaviour through behavioural science
- Develop as a professional and expand on current skills and tools through training opportunities
- Learn professional consulting skills and network with clients
- Develop your career - specialise in design, project management or selling

Here is a snapshot of our clients and design sectors we work with:

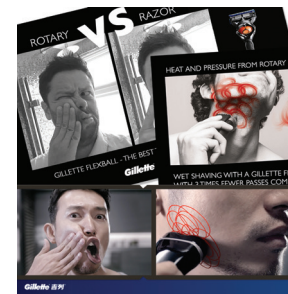

Procter & Gamble
Consumer goods

Boeing
Transport

strategy

arena
Apparel

**Ray. C Anderson
Foundation**
Electronic systems

Depuy
Medical

AkzoNobel
Interior spaces

Majestic
Wearables

WHAT WE'RE LOOKING FOR

People are the key to our success and we appreciate and reward everyone's contribution. Not only do we recognise their expertise, skills and professionalism, we value highly the things that make them unique: their passion, their dedication, their approachability and their ability to go the extra mile.

What we look for in design talent:

- A good degree in design (if graduated)
- Thoughtful, structured design process
- Excellent sketching and visualisation skills
- Potential to work creatively across a range of industries
- Ability to use Adobe Suite and Solidworks or 3DS Max
- Experience in putting together short videos and/or animations
- Competence in creating sketch models and mock-ups
- Some basic photography skills
